Administrative
Window Coverings

Reference: [REDACTED]

25X1A

- 25X1A
1. As you have stated in your reference request, there are no provisions made for the organization supplying window coverings for quarters in [REDACTED]. The Appendix in [REDACTED] spells out the authorized articles of furniture and furnishings that are allowed. It was taken from a list compiled by the Bureau of the Budget and is adhered to by all elements of this organization. The only deviation from this list has occurred when health conditions make it mandatory that extra equipment be authorized. There is insufficient justification to make an exception in this case.
 2. It is admitted that an unusual problem exists because of the construction techniques followed in these areas but it is felt that the solution to the problem lies with the tenants and not with the organization. Therefore, the request posed in referenced dispatch was disapproved.
